

PETROMERICA

TURBINE OIL 68

Petromerica Turbine Oil 68 is specifically formulated to meet the demands of geared and non-geared steam turbines, gas turbines and combined cycle gas turbines (CCGT) and provide excellent equipment protection, reliable operation, with reduced down-time and extended service life. It has good load carrying capacity, excellent water separability, superior rust and corrosion inhibition, low foaming tendency, outstanding thermal and oxidation stability properties that help reduce sludge formation, control deposits and minimize oil degradation.

Petromerica Turbine Oil 68 meet or exceed the performance standards of major gas and steam turbine manufacturers including DIN 51515 Parts I & II, BS489, GEK 32568K / 28143B, Siemens TLV 9013 04 / 05, ASTM D4304-06A Type I and III, ALSTOM HTGD 90 117, Solar ES9-224W, Chinese National Oil Standard GB 11120-2011, ISO 8068 L-TSA and L-TGA and provides multipurpose, reliable service for a wide range of industrial applications for which this type of product is recommended.

Benefits and Applications

- Excellent oxidation control and thermal stability
- Special additives provide sludge and deposit control, and longer service life
- Excellent rust and corrosion protection
- Provides superior water separation and demulsibility
- Excellent anti-foam protection and rapid air release
- Formulated to meet the most demanding OEM specifications
